## ZM1.WALL WALL Mounting Bracket

#### DIMENSION

# 3. Assembly and Mounting Instructions

Fig. 3-1 Detaching DIN-Rail brackets

Detach the two aluminium brackets by removing the four screws with a Torx screwdriver (Torx 10).

#### Fig. 3-2 Detach slide

Remove the plastic lock mechanism by using a flat-blade screwdriver to move the lock downwards while at the same time push the plastic slider upwards. Detach the plastic slider. Fig. 3-3 Mounting steel bracket

Mount the steel brackets with the same screws from the DIN-Rail brackets. Be careful not to overtighten the screws! Recommended tightening torque is 0.6Nm/ 5.3lb.in.

#### **WARNING**

Risk of electrical shock, fire, personal injury or death. Do not use other screws than the one from the DIN-Rail bracket. The unit might become unsafe when using longer screws as contact with live electrical circuits may occur.
